

PRESS RELEASE

The IEEE 19th International Conference on
Application of Information and Communication Technologies

AICT2025

Al-Ain, UAE, 29-31 October 2025

www.aict.info

The IEEE 19th International Conference on Application of Information and Communication Technologies (AICT2025) to be held on 29-31 October 2025 in Al-Ain, UAE.

The AICT2025 is organized by the ADA University, United Arab Emirates University, Politecnico di Torino, George Washington University, with technical support of

- Institute of Electrical and Electronics Engineers (IEEE)
- IEEE UAE Section
- IEEE Computer/Communication Azerbaijan Joint Chapter
- IEEE Women in Engineering Azerbaijan Affinity Group

AICT2025 will offer oral, keynote speeches, tutorials and professional meetings. Submitted papers are expected to cover state-of-the-art technologies, theoretical concepts, standards, products implementation, ongoing research projects as well as applications of ICT. The previous AICT joined hundreds of participants from several countries including Australia, Azerbaijan, Brasilia, China, Finland, Georgia, Germany, India, Iran, Italy, Japan, Kazakhstan, Korea, Latvia, Malaysia, Netherland, Pakistan, Philippines, Portugal, Romania, Russia, Slovakia, Spain, Sweden, Thailand, Turkey, Ukraine, United Kingdom, United States, Uzbekistan, etc.

Building on the success of previous conferences, AICT2025 is expected to be one of the most significant international academic conferences on ICT applications, which brings together researchers, academics, practitioners around the world to exchange, reveal and promote the latest advances on application of Information and Communication Technologies in Education and Research, Business Administration, Industry, Governance, Health Care, Humanities and Social Sciences.

Researchers, practitioners and distinguished speakers will present their proposals of original research addressing challenges, solutions, and technologies in building applications, solutions and ICT-based services.

AICT2025 conference is focused on the scientific topics classified into the following technical tracks:

- Data Science and Advanced Analytics
- Big Data Engineering
- High Performance Computing
- Machine Learning and other AI Techniques
- Software Engineering
- Cyber Security and Best Practices
- Emerging Trends and Technologies in ICT Application
- Communication, Network and Hardware
- Signal Processing
- ICT in Business Administration, Governance, Finance and Economy
- ICT in Education and Research
- ICT in Medicine and Health Care
